- 1. A radio station with sixteen towers each approximately 30 m, high is located west of Pancevo about 3 kilometers from Zemum near the Zemun-Staripazova road.\*
- 2. A 100-watt radio station is located near the village of Mirjevo approximately ten kilometers south of the Pancevo road. The station is connected with the UDB central office on Milosa Velikog Street in Belgrade. Originally constructed in 1948 by German prisoners of var, the station was reportedly built with German material and its existence was considered a secret.
- 3. Another radio station about thelve hilometers west of Belgrade on a hill east of Kijevo 'illage is also connected with the UDB. It was constructed about the same time as the 100-watt station near Mirjevo. Both stations were allegedly planned in agreement with the Cominform, probably for the purpose of jamming VOA. It is possible that the UDB presently uses them for similar purposes.
